

# MAKE A SPLASH THIS SUMMER! BUT... SAFETY FIRST.

## WHAT WE'RE DOING TO PREVENT THE SPREAD OF COVID-19

We've created the following cleaning check-list for our team members based on guidelines from the Centers for Disease Control and Prevention (CDC).

### DID YOU KNOW?

---

- *According to the CDC, "There is no evidence that COVID-19 can be spread to humans through the use of pools and hot tubs. Proper operation, maintenance, and disinfection (e.g., with chlorine and bromine) of pools and hot tubs should remove or inactivate the virus that causes COVID-19."*
- *We have had trainings with all of our team members about proper cleaning protocol.*
- *The safety of our team is just as important to us! They are required to wash their hands or use hand sanitizer.*
- *Sign-up for swim times may be required in order to monitor occupancy in support of social distancing guidelines.*
- *Pool area capacity will be limited by federal, state, and local authorities. Hours may be amended to manage capacity under these restrictions.*
- *All guests are required to shower prior to using the water amenities.*
- *Hand sanitizer will be provided in common area locations for easy use and access.*
- *Furniture placement and availability will be modified to allow for social distancing.*
- *We recommend NO handshakes or contact greetings (High 5, fist bumps, etc.)*

## WHAT WE'RE CLEANING AT THE WATER AMENITIES

---

- Focusing on frequently touched surfaces.**  
Water features, tubes, ladders and railings, gate handles, furniture, and cleaning items like vacuums and skimmers.
- Proper chemical monitoring & usage.**  
Chlorination and pH levels will be documented and follow CDC guidelines and state/local codes.
